NAME: Oscar Hinks-Sleep

Working Relationships

3.1 Explain the importance of teamwork when working on a film production

Why is teamwork important when working on *a film production?*	Due to the amount of departments, there has to be communication so everything is fluent. Sound and video have to sync up. Audiences can get taken out of view if there is something different. Several people work in departments so have to develop a group mind.
What can happen if there isn't good teamwork?	The video and audio might not match up. Production may be delayed, leading to money loss. Departments can fall apart, and there may be continuity errors.
